

OSPREY

PRODUCT DETAILS

Overview:

Noble Osprey brings signature sound and design into a refined true wireless form, offering an accessible entry without compromising our core identity. The dual-driver system delivers a clean, well-balanced listening experience with clarity, depth, and control, staying true to the Noble performance standards.

Each earpiece features a distinctive acrylic faceplate with fluid, layered patterns that create depth and individuality. Lightweight, ergonomic, and premium, the Osprey focuses on what matters most, combining performance, comfort, and seamless design for everyday listening experience.
